

**thank you and I like this very much. can you put it into a percentage value for each one of these categories that we spoke about please?**

Here's a breakdown of your learning session, showing the approximate percentage of focus and understanding devoted to each major category we discussed:

Category	Percentage of Learning Session (%)
Atomic structure	20.0
Ionization	20.0
Leptons (and all six types)	15.0
Antiparticles	10.0
Isospin	10.0
Quantum numbers	10.0
Etymology and meaning of scientific terms	5.0
Analogies to card counting and real-world applications	10.0

These percentages reflect the relative depth and breadth of our conversation in each area. If you'd like a more detailed breakdown or want to focus on a specific area next, just let me know!
